Offer

Model:

**T3**

Dear Sir/Madam,

First of all we thank your trust in our company and machinery.

Regarding your kind request please find below best **quote** and **brochure** of our

**FULLY AUTOMATIC GLASS JAR CAPPER/CLOSER  
(FOR TWIST OFF LIDS)**

This capper is perfect for small industrial productions and with **FOUR** key **advantages**:

1. Capping mechanism **imitates the human hand** so we guarantee the **best possible capping pressure**.
2. **Easy jar size changeover** making it possible to work with different glass jar sizes (Ø) during the same day.
3. Has a **positioning clamp** and a **magnetic based seaming head**. We avoid jar movements during the seaming process and therefore it is possible to work jars with liquid (oil, brines, sauces...) stucked to the glass wall and lids.
4. Entirely made in **STAINLESS STEEL** for a long lasting operation and following the latest sanitary regulations.

Hoping our machine can be someday of your interest,

Best regards

**Axel Somme**  
Sales Dpt.

## GLASS JARS AUTOMATIC CAPPER

**T3**

Fully automatic, single head, stainless steel **TWIST OFF CAPPING MACHINE** adjustable to any glass jar / cap diameter, shape & size.

Maximum capacity: **30 glass jars-caps per minute.**

Capping operation **imitates the human hand** (magnetic head) which assures a perfect capping pressure. Has a **jar positioning clamp** making it possible to work with liquid (oil, brines, sauce) stuck to the glass wall. Automatic cap unscrambling & feeding hopper. 3 meters long motorised infeed and outlet conveyor.

**Complete tooling changeover: 1hr.**

**Glass jar height changeover: 5 min.**

Space Overall: 3000 x 600 x 1800 mm

Weight: 350 kg.

Air pressure: 5 atm.

Machine commanded by a PLC & speed variator. One single control board at a safety 24 volts. 3 motors (0,33 Hp).

Optional:

- 1) Under cap STEAM FLOW for vacuum capping.
- 2) Autonomous STEAM GENERATOR.
- 3) Saucer-filler with recovery tray

Makes it particularly desirable machine for:

- Canneries with a wide range of glass jars
- Gourmand/delicatessen products – medium capacity canneries
